Five Large Snowmen- #1904

Design by Laura Doyle

The Five Large Snowmen will require re-hooping on all current customer machines. The two sections, **Right3 and Left2**, are on the following pages. Instructions for setting up and moving the fabric for use on the very large hoop machines are as follows:

1. Sew right three first.
2. Cut fabric and stabilizer 11" x 25"
3. Mount on largest hoop with fabric/stabilizer sandwich showing equal amounts left-top-right.
4. Tack bottom with a loose stitch to fold up extra material.
5. Move design as high as possible in the work area of the machine computer screen.
6. When finished stitching replace the three snowmen file with the two snowmen file in your machine computer.
7. Run the stitch area check feature to see where the needle is going for the two snowmen section. It should come very close to the two red alignment dots before you begin.
8. Remove fabric from hoop, undo the tack stitches at the bottom and place the fabric/stabilizer with the screws lightly tightened in the hoop approximately where you think the two snowmen section will stitch.
9. Tighten the end screws on the hoop firmly when you are very close to proper registration of the two red dots on each of the sections.
- 10 Use the location adjustment on the machine fine tune the location of the two snowmen.
11. Note when finished the four red dots are to be removed from the fabric.
12. For additional information on joining a design, see Becky J Designs *Cross -Stitch To Go Series-2nd edition*. Available at <<http://members.aol.com/beckyj007/>>

Five Small Snowmen

Design by Laura Doyle

The 18ct version of the Five Small Snowmen has been designed to fit, without re-hooping on one of the newer large format machines (i.e. ULT2001, Designer1 etc.) It is shown below mounted in the **Sudberry #99067 Long Box finished in black**. The 14ct version will require re-hooping on all machines.

Stitchers familiar with editing programs will find it easy to separate or combine or modify the designs. (i.e. removing the books etc.)

#1917 16ct

9.80" x 3.43" (249x87mm)

#1918 18ct 9.15" x 3.20" (232x81mm)
