Gingerbread Ornament Assembly Directions

Stitching

We stitched the gingerbread designs on brown 100% Polyester Chamois in the 16 ct.size

Purchase

- a red or brown Foam Sheet or Kandi's Corp.'s Fusible Synthetic Suede "Zwade"™ for backing material. (the foam from a craft shop /suede from KandiCorp.com.)
- small size white rick rack
- Aleene's Tacky Glue for gluing onto the foam

Assembly

- run a line of fabric sealer ("Fray-chek"™ is one brand) around the outside perimeter of the stitched designs. Let dry overnight, then trim close to stitching all around the design. (*Note: the raw edges of the houses may be folded over to back 1/8"*, which is much too difficult for the animal and people shapes).
- place finished designs right side down on a copy machine, as close together as possible. Copy, then cut apart. (*or use tracing paper and pencil if no copier is available*). These shapes are the patterns for cutting out the backing material.
- cut out foam or suede backing for each design.
- place a very small amount of batting in the center of the back of each design.
- glue a folded over 6" piece of ribbon or cording to the top center back of cut-out design. Then glue(foam) or press(zwade) together with the batting in the middle.
- place under a pile of books for a while, then press edges together with fingers until sealed.
- Decorate backs with rick rack as shown below or back with another stitched-out design reversed as in the case of the digitized houses without the background.
